High Performance JavaScript: Build Faster Web Application Interfaces Nicholas C. Zakas

If you're like most developers, you rely heavily on JavaScript to build interactive and quick-responding web applications. The problem is that all of those lines of JavaScript code can slow down your apps. This book reveals techniques and strategies to help you eliminate performance bottlenecks during development. You'll learn how to improve execution time, downloading, interaction with the DOM, page life cycle, and more.

Yahoo! frontend engineer Nicholas C. Zakas and five other JavaScript experts—Ross Harmes, Julien Lecomte, Steven Levithan, Stoyan Stefanov, and Matt Sweeney—demonstrate optimal ways to load code onto a page, and offer programming tips to help your JavaScript run as efficiently and quickly as possible. You'll learn the best practices to build and deploy your files to a production environment, and tools that can help you find problems once your site goes live.

- Identify problem code and use faster alternatives to accomplish the same task
- Improve scripts by learning how JavaScript stores and accesses data
- Implement JavaScript code so that it doesn't slow down interaction with the DOM
- Use optimization techniques to improve runtime performance
- Learn ways to ensure the UI is responsive at all times
- Achieve faster client-server communication
- Use a build system to minify files, and HTTP compression to deliver them to the browser

From reader reviews:

Brian Nelson:

Spent a free a chance to be fun activity to do! A lot of people spent their spare time with their family, or their particular friends. Usually they performing activity like watching television, going to beach, or picnic inside the park. They actually doing same thing every week. Do you feel it? Do you need to something different to fill your current free time/ holiday? Can be reading a book might be option to fill your no cost time/ holiday. The first thing that you ask may be what kinds of publication that you should read. If you want to try look for book, may be the publication untitled High Performance JavaScript: Build Faster Web Application Interfaces can be fine book to read. May be it may be best activity to you.

Jennifer Case:

People live in this new time of lifestyle always try and and must have the time or they will get lots of stress from both lifestyle and work. So, once we ask do people have time, we will say absolutely yes. People is human not really a huge robot. Then we inquire again, what kind of activity do you have when the spare time coming to anyone of course your answer will probably unlimited right. Then ever try this one, reading textbooks. It can be your alternative throughout spending your spare time, typically the book you have read is usually High Performance JavaScript: Build Faster Web Application Interfaces.

William Wright:

You could spend your free time to read this book this guide. This High Performance JavaScript: Build Faster Web Application Interfaces is simple bringing you can read it in the area, in the beach, train as well as soon. If you did not get much space to bring the printed book, you can buy the actual e-book. It is make you much easier to read it. You can save often the book in your smart phone. So there are a lot of benefits that you will get when you buy this book.

John Stewart:

Do you like reading a book? Confuse to looking for your chosen book? Or your book has been rare? Why so many question for the book? But any kind of people feel that they enjoy intended for reading. Some people likes reading through, not only science book but also novel and High Performance JavaScript: Build Faster Web Application Interfaces or maybe others sources were given information for you. After you know how the truly great a book, you feel want to read more and more. Science book was created for teacher or even students especially. Those publications are helping them to increase their knowledge. In different case, beside science publication, any other book likes High Performance JavaScript: Build Faster Web Application Interfaces to make your spare time a lot more colorful. Many types of book like here.
