Starseeds Charles Glaubitz

This is a debut New Age sci-fi graphic novel from a multimedia artist.

Multimedia artist Charles Glaubitz delivers his first graphic novel, a work of mythical, pictorial, illustrative, and cosmological components, while combining elements of myth, religion, and spirituality with comics, hermetic ideas, alchemy and science. Light travels through space and brings a prophecy of the awakening of the Crystal Sigil. At the same time, the secret society of Illuminati steals from the four elements to create a new fifth element that has the power to become any object of desire. The ensuing epic battle pits the warrior-like Starseed Children? who are the end result of the evolution of revolution within our system of genetics, philosophy, science, and art? against the Illuminati and their masters, the Annunaki, and the coming of the black darkness. Full-color illustrations throughout.
