Building Smart Homes with Raspberry Pi Zero

Marco Schwartz

Building Smart Homes with Raspberry Pi Zero Marco Schwartz

Key Features

- Create and program home automation projects using the Raspberry Pi Zero board
- Connect your Raspberry Pi Zero to a cloud API, and then build a cloud dashboard to control your devices
- Integrate all the projects into a complex project to automate key aspects of your home: data monitoring, devices control, and security

Book Description

The release of the Raspberry Pi Zero has completely amazed the tech community. With the price, form factor, and being high on utility—the Raspberry Pi Zero is the perfect companion to support home automation projects and makes IoT even more accessible.

With this book, you will be able to create and program home automation projects using the Raspberry Pi Zero board. The book will teach you how to build a thermostat that will automatically regulate the temperature in your home. Another important topic in home automation is controlling electrical appliances, and you will learn how to control LED Lights, lamps, and other electrical applications.

Moving on, we will build a smart energy meter that can measure the power of the appliance, and you'll learn how to switch it on and off. You'll also see how to build simple security system, composed of alarms, a security camera, and motion detectors. At the end, you will integrate everything what you learned so far into a more complex project to automate the key aspects of your home.

By the end, you will have deepened your knowledge of the Raspberry Pi Zero, and will know how to build autonomous home automation projects.

What you will learn

- Learn how to measure and store data using the Raspberry Pi Zero board
- Control LED lights, lamps, and other electrical applications
- Send automated notifications by e-mail, SMS, or push notifications
- Connect motion detectors, cameras, and alarms
- Create automated alerts using Raspberry Pi Zero boards
- Control devices using cloud-based services
- Build a complete home automation system using Pi Zero

About the Author

Marco Schwartz is an electrical engineer, entrepreneur, and blogger. He has a master's degree in electrical engineering and computer science from Supelec, France, and a master's degree in micro engineering from the Ecole Polytechnique Federale de Lausanne (EPFL), Switzerland.

He has more than five years of experience working in the domain of electrical engineering. Marco's interests gravitate around electronics, home automation, the Arduino and Raspberry Pi platforms, open source

hardware projects, and 3D printing.

He has several websites about Arduino, including the Open Home Automation website, which is dedicated to building home automation systems using open source hardware.

Marco has written another book on home automation and Arduino, called Home Automation With Arduino: Automate Your Home Using Open-source Hardware. He has also written a book on how to build Internet of Things projects with Arduino, called Internet of Things with the Arduino Yun, by Packt Publishing.

Table of Contents

1. Configuring Your Raspberry Pi Zero Board
2. Measure Data Using Your Raspberry Pi Zero Board
3. Building a Smart Home Thermostat
4. Controlling Appliances from the Raspberry Pi Zero
5. Making a Smart Plug with the Raspberry Pi Zero
6. Sending Notifications using Raspberry Pi Zero
7. Use the Raspberry Pi Zero to Build a Security System
8. Monitor Your Home from the Cloud
9. Control Appliances from Anywhere
10. Building a Home Automation System with Raspberry Pi Zero Boards

From reader reviews:

Virgil Arriola:

Have you spare time for just a day? What do you do when you have a lot more or little spare time? That's why, you can choose the suitable activity regarding spend your time. Any person spent all their spare time to take a go walking, shopping, or went to the particular Mall. How about open as well as read a book eligible Building Smart Homes with Raspberry Pi Zero? Maybe it is to get best activity for you. You recognize beside you can spend your time along with your favorite's book, you can cleverer than before. Do you agree with it has the opinion or you have various other opinion?

Kim Marshall:

What do you about book? It is not important along? Or just adding material when you need something to explain what your own problem? How about your spare time? Or are you busy man? If you don't have spare time to complete others business, it is gives you the sense of being bored faster. And you have time? What did you do? Everyone has many questions above. They should answer that question since just their can do that. It said that about guide. Book is familiar on every person. Yes, it is correct. Because start from on kindergarten until university need that Building Smart Homes with Raspberry Pi Zero to read.

Stuart Rosado:

Do you certainly one of people who can't read gratifying if the sentence chained inside straightway, hold on guys this particular aren't like that. This Building Smart Homes with Raspberry Pi Zero book is readable simply by you who hate those perfect word style. You will find the information here are arrange for enjoyable examining experience without leaving actually decrease the knowledge that want to give to you. The writer regarding Building Smart Homes with Raspberry Pi Zero content conveys thinking easily to understand by lots of people. The printed and e-book are not different in the content material but it just different available as it. So , do you continue to thinking Building Smart Homes with Raspberry Pi Zero is not loveable to be your top checklist reading book?

Barbara Simon:

Playing with family in the park, coming to see the water world or hanging out with friends is thing that usually you have done when you have spare time, then why you don't try issue that really opposite from that. Just one activity that make you not feeling tired but still relaxing, trilling like on roller coaster you already been ride on and with addition info. Even you love Building Smart Homes with Raspberry Pi Zero, you can enjoy both. It is good combination right, you still would like to miss it? What kind of hang type is it? Oh occur its mind hangout people. What? Still don't get it, oh come on its named reading friends.
