Home Health Aide On-the-Go In-Service Lessons: Vol. 5, Issue 5: COPD (Home Health Aide on-the-Go in-Service Lessons, Volume 5) HCPPro, Inc., Beacon Health

This lesson on COPD (Chronic Obstructive Pulmonary Disease) includes a complete training packet. Each in-service packet takes approximately one hour to complete and fully meets the Medicare in-service training requirements. As aides need training, you can make as many copies as you want - there s no restriction when used with aides assigned from your office location. Remember that Home Health Aides must have 12 hours of in-service training every year. LESSON OBJECTIVES Upon completion of this program, the home health aide will be able to: Explain how COPD affects the lungs List signs and symptoms of COPD, and Explain the importance of reporting changes in the COPD patient s condition to the clinician or supervisor.

OVERVIEW Chronic obstructive pulmonary disease (COPD) is a group of chronic diseases that result in breathing difficulty. With COPD, the lungs are damaged. COPD affects about one out of 14 people over the age of 45. COPD is primarily caused by smoking. It is a leading cause of death, illness, and disability in the United States. Home health aides will often care for patients with COPD. These patients tire easily just from trying to breathe. Having an understanding of the disease will enable aides to better care for their patients.
