Loop Spaces, Characteristic Classes and Geometric Quantization (Modern Birkhäuser Classics)

Jean-Luc Brylinski

Loop Spaces, Characteristic Classes and Geometric Quantization (Modern Birkhäuser Classics) Jean-Luc Brylinski

This book examines the differential geometry of manifolds, loop spaces, line bundles and groupoids, and the relations of this geometry to mathematical physics. Applications presented in the book involve anomaly line bundles on loop spaces and anomaly functionals, central extensions of loop groups, Kähler geometry of the space of knots, and Cheeger--Chern--Simons secondary characteristic classes. It also covers the Dirac monopole and Dirac's quantization of the electrical charge.

From reader reviews:

Todd Jacob:

In this 21st one hundred year, people become competitive in every way. By being competitive at this point, people have to do something to make all of them survive, being in the middle of the particular crowded place and notice by surrounding. One thing that oftentimes many people have underestimated the item for a while is reading. Sure, by reading an e-book your ability to survive improves then having a chance to stay than other is high. For you personally who want to start reading a book, we give you this specific Loop Spaces, Characteristic Classes and Geometric Quantization (Modern Birkhäuser Classics) book as a beginning and daily reading guide. Why, because this book is usually more than just a book.

Ronald Karl:

The event that you get from Loop Spaces, Characteristic Classes and Geometric Quantization (Modern Birkhäuser Classics) will be the more deep you look for the information that hides inside the words the more you get thinking about reading it. It does not mean that this book is hard to know but Loop Spaces, Characteristic Classes and Geometric Quantization (Modern Birkhäuser Classics) giving you an enjoyment feeling of reading. The writer conveys their point in a number of ways that can be understood by simply anyone who reads this because the author of this publication is well-known enough. That book also makes your current vocabulary increase well. Making it easy to understand then can go with you, both in printed or e-book style are available. We suggest you for having this Loop Spaces, Characteristic Classes and Geometric Quantization (Modern Birkhäuser Classics) instantly.

Helen Leavitt:

Reading a book for being a new life style in this year; every person loves to read a book. When you go through a book you can get a lot of benefit. When you read publications, you can improve your knowledge, since a book has a lot of information in it. The information that you will get depends on what types of book that you have read. If you wish to get information about your analysis, you can read education books, but if you want to entertain yourself you can read fiction books, these are novels, comics, as well as soon. The Loop Spaces, Characteristic Classes and Geometric Quantization (Modern Birkhäuser Classics) offer you a new experience in reading a book.

Marlene Clabaugh:

Do you like reading a book? Confused to looking for your chosen book? Or your book seemed to be rare? Why so many issues for the book? But virtually any person feels that they enjoy with regard to reading. Some people like examining, not only science books but also novels and Loop Spaces, Characteristic Classes and Geometric Quantization (Modern Birkhäuser Classics) or perhaps other sources were given expertise for you. After you know how truly amazing a book is, you feel like you wish to read more and more. Science books were created for teachers or maybe students especially. Those publications are helping them to bring their

knowledge. In various other case, beside science reserve, any other book likes Loop Spaces, Characteristic Classes and Geometric Quantization (Modern Birkhäuser Classics) to make your spare time a lot more colorful. Many types of book like this.
