2010 National Building Cost Manual Dave Ogershok

Square-foot costs for residential, commercial, industrial, military buildings. Includes square foot prices for homes, condos, cabins, schools, greenhouses, churches, government offices, fire stations, libraries, and farm buildings. Includes important variables that can make any building unique from a cost standpoint.

All you need to do is measure the number of square feet, then identify the building type, along with the construction material, design features and class of construction.

Now includes easy-to-use software that calculates total in-place cost estimates. Use the regional cost adjustment factors provided to tailor the estimate to any jobsite in the U.S. Then view, print, email or save the detailed PDF report as needed.

Revised annually.
