Lippincott Interactive Tutorials and Case Studies for Brunner & Suddarth's Textbook of Medical-Surgical Nursing Suzanne C. Smeltzer

These flash based interactive tutorials and case studies offers a hands-on learning experience to complement course and lab instruction, as well as traditional text material.

Including animations, graphic and interactive presentations of content, and interactive exercises that will appeal to multiple learning styles. The course is divided into subject modules, with each module covering nursing care for the most common or most important disorders affecting a particular body system, and including in-depth case-based activities and case-based questions. This product will reinforce key topics that instructors cover in depth in class, review important topics that instructors do not have time to cover in depth, and prepare students to care for patients in the clinical setting. Using a module-based format, *Lippincott's Interactive Tutorial and Case Studies in Medical-Surgical Nursing* is meant to supplement a course textbook, but could also serve as a stand-alone learning system.
