The Complete Works of W.R. Bion Wilfred R. Bion

The complete works of Wilfred Ruprecht Bion will now be available in a coherent and corrected format.

Comprising sixteen volumes bound in green cloth, this edition is being brought together and edited by Chris Mawson with the assistance of Francesca Bion. Incorporating many corrections to previously published works, it will also feature previously unpublished papers. Including a full set of indexes and editorial introductions to all the works, these volumes will be a useful and valuable aid to psychoanalytic scholars and clinicians, and all those interested in studying and making use of Bion's thinking.

Bion's writings, including the previously unpublished papers and additions to his *Cogitations*, collected together in the *Complete Works*, show that the clinical thrust of Bion's work has clear lines of continuity with that of Melanie Klein, just as her work has an essential continuity with the later work of Freud. In Bion's clinical work and supervision the goal remains insightful understanding of psychic reality through a disciplined experiencing of the transference and countertransference; the setting and the method--however much Bion's terminology might suggest otherwise--remains rigorously psychoanalytic.
