Fractal Microstrip Antenna Design, Fabrication and Measurements: Fractal Microstrip Antennas

Mohamed I. Ahmed

The two main properties of the fractal antennas were investigated. Firstly, the self-similarity property was studied. The cavity model is used to analyze an equilateral triangular patch on a grounded dielectric substrate. A Matlab program was built to calculate the resonant frequencies, the input impedance, the reflection coefficient, etc. Then this triangular patch was used as the initiator of the Sierpinski Gasket fractal antenna with probe feeding. The first three iterations of this antenna were studied. These novel shapes include an air gap between the substrate and the ground plane, inverting the patch to reduce the dielectric loss and consequently increase the antenna efficiency and adding a shorting pin to improve the matching conditions as well as reducing the antenna size. Secondly, the space-filling property was studied and the rectangular microstrip patch was used as an initiator to all iterations. The first three iterations of a single pulse microstrip patch antenna were investigated. The second step was to study other shapes like the two pulses, NRZ (Non Return to Zero), Koch at angles 30o, 60o, 80o and 90o, Pulse 2.45 and Pulse 2.45 + Koch 90o microstrip antennas.

From reader reviews:

Jeffrey Richard:

Fractal Microstrip Antenna Design, Fabrication and Measurements: Fractal Microstrip Antennas can be one of your basic books that are good idea. Most of us recommend that straight away because this reserve has good vocabulary that could increase your knowledge in vocabulary, easy to understand, bit entertaining but nevertheless delivering the information. The writer giving his/her effort to put every word into pleasure arrangement in writing Fractal Microstrip Antenna Design, Fabrication and Measurements: Fractal Microstrip Antennas yet doesn't forget the main point, giving the reader the hottest in addition to based confirm resource info that maybe you can be certainly one of it. This great information could drawn you into brand new stage of crucial considering.

Arlie Carrillo:

Is it anyone who having spare time then spend it whole day by means of watching television programs or just laying on the bed? Do you need something totally new? This Fractal Microstrip Antenna Design, Fabrication and Measurements: Fractal Microstrip Antennas can be the respond to, oh how comes? A fresh book you know. You are consequently out of date, spending your extra time by reading in this fresh era is common not a geek activity. So what these publications have than the others?

Gail Kennedy:

You can find this Fractal Microstrip Antenna Design, Fabrication and Measurements: Fractal Microstrip Antennas by browse the bookstore or Mall. Merely viewing or reviewing it can to be your solve problem if you get difficulties for the knowledge. Kinds of this reserve are various. Not only by written or printed but also can you enjoy this book by means of e-book. In the modern era such as now, you just looking from your mobile phone and searching what your problem. Right now, choose your ways to get more information about your book. It is most important to arrange yourself to make your knowledge are still revise. Let's try to choose suitable ways for you.

Hazel Gannon:

That guide can make you to feel relax. This specific book Fractal Microstrip Antenna Design, Fabrication and Measurements: Fractal Microstrip Antennas was vibrant and of course has pictures on the website. As we know that book Fractal Microstrip Antenna Design, Fabrication and Measurements: Fractal Microstrip Antennas has many kinds or variety. Start from kids until youngsters. For example Naruto or Private investigator Conan you can read and think that you are the character on there. Therefore not at all of book are make you bored, any it makes you feel happy, fun and unwind. Try to choose the best book in your case and try to like reading which.
