New Astronomer Carole Stott

The essential guide that shows you how to get the most from your observations.

For thousands of years, observers have gazed up at the night sky and wondered at the celestial bodies that occupy the vastness of space. If you have ever wanted to learn more about such phenomena, or just how to locate the major constellations and the planets, this practical and accessible guide will provide all the information you need. Covering comets, aurorae, asteroids, and nebulae as well as the moon, stars, and planets, *New Astronomer* is fully illustrated with drawings and photographs. Detailed sky charts help you to navigate around the heavens and locate the major constellations, stellar objects, and the planets. For each of the planets, there is a specially prepared map to help you pinpoint the exact location of each one up to the year 2010. A planisphere is included that shows the entire sky above your head for any time of night, and for any time of the year. *New Astronomer* offers comprehensively detailed yet straightforward advice on choosing and using the very latest equipment, including binoculars, telescopes, and accessories. It also shows you how to take photographs of celestial objects using an ordinary camera linked to your astronomical equipment. For the real enthusiast, this book features state-of-the-art technology, such as computer-linked digital imaging. Whether you are already an experienced astronomer, or just starting out, this essential guide contains all you need to know for successful skywatching.

From reader reviews:

Henry Major:

The book New Astronomer make you feel enjoy for your spare time. You should use to make your capable considerably more increase. Book can to become your best friend when you getting pressure or having big problem with your subject. If you can make studying a book New Astronomer for being your habit, you can get far more advantages, like add your current capable, increase your knowledge about a few or all subjects. You are able to know everything if you like available and read a publication New Astronomer. Kinds of book are several. It means that, science book or encyclopedia or other individuals. So , how do you think about this guide?

Linda Haag:

As people who live in typically the modest era should be revise about what going on or details even knowledge to make these keep up with the era which can be always change and make progress. Some of you maybe will update themselves by examining books. It is a good choice for yourself but the problems coming to you is you don't know what kind you should start with. This New Astronomer is our recommendation to cause you to keep up with the world. Why, as this book serves what you want and want in this era.

Edna Pilon:

Why? Because this New Astronomer is an unordinary book that the inside of the book waiting for you to snap the item but latter it will zap you with the secret the item inside. Reading this book alongside it was fantastic author who also write the book in such wonderful way makes the content on the inside easier to understand, entertaining means but still convey the meaning entirely. So , it is good for you because of not hesitating having this anymore or you going to regret it. This unique book will give you a lot of rewards than the other book have such as help improving your skill and your critical thinking method. So , still want to delay having that book? If I have been you I will go to the e-book store hurriedly.

Justin Mireles:

New Astronomer can be one of your beginning books that are good idea. All of us recommend that straight away because this reserve has good vocabulary that may increase your knowledge in vocab, easy to understand, bit entertaining but nevertheless delivering the information. The article author giving his/her effort that will put every word into enjoyment arrangement in writing New Astronomer nevertheless doesn't forget the main point, giving the reader the hottest and based confirm resource information that maybe you can be among it. This great information can easily drawn you into new stage of crucial imagining.
