A Researcher's Guide to Sources on Soviet Social History in the 1930s Sheila Fitzpatrick, Lynne Viola
The Stalin era has been less accessible to researchers than either the preceding decade or the postwar era. The basic problem is that during the Stalin years censorship restricted the collection and dissemination of information (and introduced bias and distortion into the statistics that were published), while in the post-Stalin years access to archives and libraries remained tightly controlled. Thus it is not surprising that one of the main manifestations of glasnost has been the effort to open up records of the 1930s. In this volume Western and Soviet specialists detail the untapped potential of sources on this period of Soviet social history and also the hidden traps that abound. The full range of sources is covered, from memoirs to official documents, from city directories to computerized data bases.
