Looseleaf for Sexuality Today Gary Kelly

Sexuality Today successfully balances psychological, biological, and social aspects of human sexuality, integrating the latest research findings and providing a variety of tools to help students engage personally with core concepts. The author's balanced approach is evident in his ability to present various sides of controversial topics in a neutral voice, supported by sound research, yet expressed in a lively and applied manner. The eleventh edition reinforces this approach through in-depth discussions of the varied changes that the field has undergone in recent years and by including new data on issues ranging from hypersexuality and masturbation to fertility rates. This edition also offers coverage and statistics regarding the changing sexual behavior of adolescents and young adults. Students who leave this course will not only have a new appreciation of the complexity and diversity of the field but will also be able to develop a mature understanding of their own sexuality.

Instructors and students can now access their course content through the Connect digital learning platform by purchasing either standalone Connect access or a bundle of print and Connect access. McGraw-Hill Connect® is a subscription-based learning service accessible online through your personal computer or tablet. Choose this option if your instructor will require Connect to be used in the course. Your subscription to Connect includes the following:

- SmartBook® - an adaptive digital version of the course textbook that personalizes your reading experience based on how well you are learning the content.
- Access to your instructor's homework assignments, quizzes, syllabus, notes, reminders, and other important files for the course.
- Progress dashboards that quickly show how you are performing on your assignments and tips for improvement.
- The option to purchase (for a small fee) a print version of the book. This binder-ready, loose-leaf version includes free shipping.

Complete system requirements to use Connect can be found here:
