## **Finding Shapes at the Fair: Identify and Describe Shapes (Infomax Common Core Math Readers: Level B)** Marco Lucarelli

Geometry skills are learned from an early age, and readers build upon those first geometry lessons with topics like describing objects using the names of shapes, identifying both two-dimensional and three-dimensional shapes, and composing shapes. Readers are able to explore these essential concepts independently through simple text and colorful images of both new and familiar shapes. An exciting day at the fair is the setting for important lessons about the various orientations and sizes shapes can be found in. This book specifically addresses standard K.G.A.2 of the Common Core State Standards for Mathematics.
