"To exert your gripping powers you have to bring your mental powers into play. You may perform free exercises until the cows come home with little benefit to your health, strength or muscularity if your mind is wandering from the thoughts of breakfast to your best girl, for it is only when you focus your full attention to the muscles being used that the work becomes strenuous and result-getting. Attempt to pick up a weight from the floor, one just within your compass, and you will find that unless you bring your full powers to bear on the job in hand, you will not succeed in raising it an inch. You have to give your full and undivided attention to the task of raising the weight; otherwise you will fail. We therefore see that the practice of exercises calculated to augment one's gripping powers must of necessity improve and strengthen one's Power of Will with untold benefits to one's whole career". - Edward Aston Visit our website and see our many books at [PhysicalCultureBooks.com](http://PhysicalCultureBooks.com)
