**Learning PHP 7 High Performance** Ataf Hussain

**Improve the performance of your PHP application to ensure the application users aren't left waiting**

## About This Book

- Make the optimum use of PHP coding to improve your programming productivity
- Leverage the potential of PHP for server-side programming, memory management, and object-oriented programming
- Packed with real-life examples to help the readers implement concepts as they learn

## Who This Book Is For

This book is for those who have basic experience in PHP programming. If you are developing performance-critical applications, then this book is for you.

## What You Will Learn

- Setup high performance development and production environment for PHP 7
- Discover new OOP features in PHP 7 to achieve high performance
- Improve your PHP applications' performance
- Attain improved database performance
- Benchmark PHP applications to optimize them
- Write quality code by learning to improve code reusability, simplicity, and expressiveness
- Get rid of the bottlenecks in your PHP 7 applications by writing PHP code optimally
- Tackle issues related to web applications, such as high user dependency and large datasets

## In Detail

PHP is a great language for building web applications. It is essentially a server-side scripting language that is also used for general-purpose programming. PHP 7 is the latest version, providing major backward-compatibility breaks and focusing on high performance and speed.

This fast-paced introduction to PHP 7 will improve your productivity and coding skills. The concepts covered will allow you, as a PHP programmer, to improve the performance standards of your applications. We will introduce you to the new features in PHP 7 and then will run through the concepts of object-oriented programming (OOP) in PHP 7. Next, we will shed some light on how to improve your PHP 7 applications' performance and database performance. Through this book, you will be able to improve the performance of your programs using the various benchmarking tools discussed.

At the end, the book discusses some best practices in PHP programming to help you improve the quality of your code.

## Style and approach

The book is a step-by-step guide to improve the quality of your code in PHP through real-time examples. The book takes a practical approach to improving the quality of your code.

### From reader reviews:

#### **Doris Williams:**

Throughout other case, little folks like to read book Learning PHP 7 High Performance. You can choose the best book if you'd prefer reading a book. Providing we know about how is important a book Learning PHP 7 High Performance. You can add information and of course you can around the world by way of a book. Absolutely right, simply because from book you can understand everything! From your country until finally foreign or abroad you will find yourself known. About simple thing until wonderful thing you are able to know that. In this era, we can easily open a book as well as searching by internet system. It is called e-book. You may use it when you feel bored stiff to go to the library. Let's learn.

#### **Darlene Johnson:**

Reading a book can be one of a lot of exercise that everyone in the world really likes. Do you like reading book thus. There are a lot of reasons why people enjoyed. First reading a e-book will give you a lot of new info. When you read a book you will get new information due to the fact book is one of many ways to share the information or even their idea. Second, reading a book will make anyone more imaginative. When you examining a book especially fictional works book the author will bring one to imagine the story how the characters do it anything. Third, you may share your knowledge to other folks. When you read this Learning PHP 7 High Performance, you are able to tells your family, friends as well as soon about yours publication. Your knowledge can inspire the mediocre, make them reading a book.

#### **Kimberly Hutton:**

Reading can called head hangout, why? Because if you are reading a book especially book entitled Learning PHP 7 High Performance your mind will drift away trough every dimension, wandering in each aspect that maybe unknown for but surely will end up your mind friends. Imaging every word written in a guide then become one contact form conclusion and explanation which maybe you never get before. The Learning PHP 7 High Performance giving you yet another experience more than blown away your mind but also giving you useful data for your better life in this era. So now let us show you the relaxing pattern the following is your body and mind are going to be pleased when you are finished studying it, like winning a sport. Do you want to try this extraordinary spending spare time activity?

#### **Johnny Relyea:**

Your reading sixth sense will not betray you actually, why because this Learning PHP 7 High Performance publication written by well-known writer we are excited for well how to make book which can be understand by anyone who read the book. Written throughout good manner for you, dripping every ideas and publishing skill only for eliminate your hunger then you still hesitation Learning PHP 7 High Performance as good book not just by the cover but also by content. This is one book that can break don't judge book by its cover, so do you still needing yet another sixth sense to pick that!? Oh come on your reading through sixth sense already alerted you so why you have to listening to a different sixth sense.
