The Wild West sure earned its name, but too many tales of these times leave out the actual juicy stuff. This is not one of those stories. No, you are invited to peek into true history unabashed, though with some good ole' naughty fiction as well. A long lasting curse of promiscuity's fate follows a very gorgeous young Native American girl of the proud Pima tribe, bringing her her such undeniable satisfaction, and yet also much misery. She is destined to run smack into a whole new world as the white man and his Army of the West march through the southwest in 1846. Both of their worlds are caught up together in a whirlwind of lust, and also in the ancient curse. Many generations of their descendants also suffer from this fate. Perhaps though, the bright hope of destiny may still shine upon their offspring someday. However, a bitter lesson must be learned first.
