Emotional Intelligence: A Cybernetic Approach (Studies in Computational Intelligence) Aruna Chakraborty, Amit Konar
Emotional Intelligence is a new discipline of knowledge, dealing with modeling, recognition and control of human emotions. The book Emotional Intelligence: A Cybernetic Approach, to the best of the authors' knowledge is a first compreh- sive text of its kind that provides a clear introduction to the subject in a precise and insightful writing style. It begins with a philosophical introduction to E- tional Intelligence, and gradually explores the mathematical models for emotional dynamics to study the artificial control of emotion using music and videos, and also to determine the interactions between emotion and logic from the points of view of reasoning. The later part of the book covers the chaotic behavior of - existing emotions under certain conditions of emotional dynamics. Finally, the book attempts to cluster emotions using electroencephalogram signals, and d- onstrates the scope of application of emotional intelligence in several engineering systems, such as human-machine interfaces, psychotherapy, user assistance s- tems, and many others. The book includes ten chapters. Chapter 1 provides an introduction to the s- ject from a philosophical and psychological standpoint. It outlines the fundamental causes of emotion arousal, and typical characteristics of the phenomenon of an emotive experience. The relation between emotion and rationality of thoughts is also introduced here. Principles of natural regulation of emotions are discussed in brief, and the biological basis of emotion arousal using an affective neu- scientific model is introduced next.

From reader reviews:

Deborah Lake:

Reading a publication tends to be new life style in this particular era globalization. With examining you can get a lot of information that will give you benefit in your life. With book everyone in this world can easily share their idea. Ebooks can also inspire a lot of people. Lots of author can inspire all their reader with their story or perhaps their experience. Not only the storyplot that share in the publications. But also they write about the information about something that you need illustration. How to get the good score toefl, or how to teach your sons or daughters, there are many kinds of book that you can get now. The authors nowadays always try to improve their skill in writing, they also doing some investigation before they write with their book. One of them is this Emotional Intelligence: A Cybernetic Approach (Studies in Computational Intelligence).

Paul Smith:

The actual book Emotional Intelligence: A Cybernetic Approach (Studies in Computational Intelligence) has a lot associated with on it. So when you check out this book you can get a lot of advantage. The book was written by the very famous author. Mcdougal makes some research just before write this book. This kind of book very easy to read you may get the point easily after scanning this book.

Richard Vedder:

You may get this Emotional Intelligence: A Cybernetic Approach (Studies in Computational Intelligence) by browse the bookstore or Mall. Simply viewing or reviewing it could possibly to be your solve challenge if you get difficulties to your knowledge. Kinds of this e-book are various. Not only by means of written or printed but in addition can you enjoy this book by means of e-book. In the modern era like now, you just looking by your local mobile phone and searching what their problem. Right now, choose your own personal ways to get more information about your e-book. It is most important to arrange you to ultimately make your knowledge are still update. Let's try to choose suitable ways for you.

Andrew Leavens:
