**KILLING THE RISING SUN:** How America Vanquished World War II Japan | Study Guide - *NOT ORIGINAL BOOK*

Will Bill O'Reilly ever run out of things to kill? After Jesus, Lincoln and Kennedy it looked like the well might run a little dry. Would there be a Killing Taft? With the release of Killing Reagan earlier this year, O'Reilly expanded the parameters of the series to include attempted assassinations. In this most recent incarnation, Killing The Rising Sun, about America's defeat of World War II Japan, the Killing series has become an umbrella historical banner, able to incorporate any historical figure, time period or event.

More than just a series of books, the sheer popularity of the Killing series has reshaped America's perceptions of our past. The way Band of Brothers and Saving Private Ryan shapes our view of America's invasion of Europe, or Downton Abbey effects how we view the early 20th century, or Mad Men shapes our view of New York City in the 1960s, Bill O'Reilly may be the most successful (and influential) murderer of our time.

This Study Guide will give you an insight into what you can expect from the upcoming Rising Sun release from O'Reilly. Even after its release this book will help to give some historical perspective that will continue to complement the reading of his latest volume.
