The current controversy over the future of the forest in Clayoquot Sound is seen by many as typifying the unsolvable conflict between jobs and the environment. In *The Green Economy*, Michael Jacobs rejects both the traditional Green demand for 'zero growth' and the new economic orthodoxy which seeks to give the environment a monetary value. In their place, he defines the concept of 'sustainability,' as founded in a concern for future generations. But what is sustainable development? How can it be achieved?
