Redesigning the College Library Building, 2014 Edition Primary Research Group

This 220+ page report looks closely at the capital spending plans and building renovation/construction policies of academic libraries, predominantly in the USA and Canada. The study covers capital spending and space allocation plans with highly detailed data on recent library spending and future plans for the construction or renovation of library cafes, seating space, lighting, atriums, classroom space, information commons and other technology-oriented spaces, group study space, storage space, collection space, rooftop space, offices, meeting spaces and auditoriums, entrances and exits, restrooms, gardens and other outdoor spaces, artwork, windows, space and facilities for special collections, performance space, space intended for library applications for specific academic departments and other forms of library space and special features. In addition, the report looks at other forms of capital spending such as plans for library furniture, workstations, information technology and more. The study also presents extensive data on sources of funding for renovations and new construction as well as data on how renovations have been received by the target audience. Redesigning the College Library Building, 2014 Edition also examines special purpose investments in energy saving technology, enhancements to natural light and soundproofing, among others. Data is broken out for public and private colleges, by size and type of college, and by college tuition level.
