Seeds (Science Readers: Content and Literacy) Elizabeth Austen

Learn all about seeds and how they grow! The vibrant images and simple text engage students while helping them easily comprehend the cycle of how seeds grow into plants that grow new seeds. Discover how seeds come in many shapes and sizes, what seeds need to grow, how seeds are spread, and more! Instructions for a fun science activity are also included to give students additional practice in identifying baby animals. A helpful glossary and index offer additional support.

About Shell Education

Rachelle Cracchiolo started the company with a friend and fellow teacher. Both were eager to share their ideas and passion for education with other classroom leaders. What began as a hobby, selling lesson plans to local stores, became a part-time job after a full day of teaching, and eventually blossomed into Teacher Created Materials. The story continued in 2004 with the launch of Shell Education and the introduction of professional resources and classroom application books designed to support Teacher Created Materials curriculum resources. Today, Teacher Created Materials and Shell Education are two of the most recognized names in educational publishing around the world.
