The Hamsat Handbook: A Complete History and Frequency Guide to Amateur Radio Satellites

Anthony R. Curtis

Here's complete data on every one of the amateur radio satellites - current and past - since Oscar 1 went up on December 12, 1961. Curtis presents a history of the amateur radio satellite movement, then explains how amateur satellites work and provides full frequency and transponder mode information. One chapter looks at amateur radio satellites scheduled for future launch, another discusses amateur radio in space shuttles and space stations. Anyone interested in amateur radio satellite communications will find this is an essential reference guide!
