**3D Face Modeling, Analysis and Recognition** Mohamed Daoudi, Anuj Srivastava, Remco Veltkamp

*3D Face Modeling, Analysis and Recognition* presents methodologies for analyzing shapes of facial surfaces, develops computational tools for analyzing 3D face data, and illustrates them using state-of-the-art applications. The methodologies chosen are based on efficient representations, metrics, comparisons, and classifications of features that are especially relevant in the context of 3D measurements of human faces. These frameworks have a long-term utility in face analysis, taking into account the anticipated improvements in data collection, data storage, processing speeds, and application scenarios expected as the discipline develops further.

The book covers face acquisition through 3D scanners and 3D face pre-processing, before examining the three main approaches for 3D facial surface analysis and recognition: facial curves; facial surface features; and 3D morphable models. Whilst the focus of these chapters is fundamentals and methodologies, the algorithms provided are tested on facial biometric data, thereby continually showing how the methods can be applied.

Key features:

- Explores the underlying mathematics and will apply these mathematical techniques to 3D face analysis and recognition
- Provides coverage of a wide range of applications including biometrics, forensic applications, facial expression analysis, and model fitting to 2D images
- Contains numerous exercises and algorithms throughout the book

### **From reader reviews:**

#### **Claire Underwood:**

This 3D Face Modeling, Analysis and Recognition book is simply not ordinary book, you have it then the world is in your hands. The benefit you have by reading this book is information inside this publication incredible fresh, you will get information which is getting deeper an individual read a lot of information you will get. This particular 3D Face Modeling, Analysis and Recognition without we comprehend teach the one who reading through it become critical in contemplating and analyzing. Don't always be worry 3D Face Modeling, Analysis and Recognition can bring any time you are and not make your bag space or bookshelves' become full because you can have it inside your lovely laptop even mobile phone. This 3D Face Modeling, Analysis and Recognition having excellent arrangement in word and layout, so you will not sense uninterested in reading.

#### **Nona Whitehouse:**

The experience that you get from 3D Face Modeling, Analysis and Recognition may be the more deep you looking the information that hide into the words the more you get serious about reading it. It does not mean that this book is hard to be aware of but 3D Face Modeling, Analysis and Recognition giving you joy feeling of reading. The article writer conveys their point in particular way that can be understood by means of anyone who read it because the author of this reserve is well-known enough. This kind of book also makes your vocabulary increase well. Making it easy to understand then can go with you, both in printed or e-book style are available. We propose you for having this particular 3D Face Modeling, Analysis and Recognition instantly.

#### **Barbara Goodman:**

People live in this new moment of lifestyle always try to and must have the free time or they will get lots of stress from both day to day life and work. So , whenever we ask do people have extra time, we will say absolutely sure. People is human not really a huge robot. Then we request again, what kind of activity are you experiencing when the spare time coming to an individual of course your answer may unlimited right. Then do you try this one, reading ebooks. It can be your alternative throughout spending your spare time, the actual book you have read is definitely 3D Face Modeling, Analysis and Recognition.

#### **Lea Wheeler:**

Reading can called mind hangout, why? Because if you are reading a book specially book entitled 3D Face Modeling, Analysis and Recognition your thoughts will drift away trough every dimension, wandering in each aspect that maybe unfamiliar for but surely will become your mind friends. Imaging each word written in a guide then become one form conclusion and explanation in which maybe you never get before. The 3D Face Modeling, Analysis and Recognition giving you an additional experience more than blown away your head but also giving you useful information for your better life with this era. So now let us explain to you the

relaxing pattern this is your body and mind is going to be pleased when you are finished looking at it, like winning a. Do you want to try this extraordinary investing spare time activity?
