Culture and the State

David Lloyd, Paul Thomas

Culture and the State David Lloyd, Paul Thomas

From the end of the eighteenth century to the late nineteenth century, a remarkable convergence takes place in Europe between theories of the modern state and theories of culture. *Culture and the State* explores that theoretical convergence in relation to the social functions of state and cultural institutions, showing how cultural education comes to play the role of forming citizens for the modern state. It critiques the way in which materialistic thinking has largely taken the concept of culture for granted and failed to grasp its relation to the idea of the state.
